SMLV1000QA

HAND PROPELLED SPHERICAL MOBILE LIGHTING VEHICLE

FEATURES

- Equipped with imported power, quality assurance, superior performance.
- Equipped with metal halide lamp, large luminous flux and long life.
- High performance self-braking hand winch
- 3-section lifting pole, galvanized light pole, anti-drop, corrosion-resistant.
- Left and right windproof support frame, stable support
- Integrated operator panel
- 5 meters lifting height, adjustable irradiation angle, long irradiation distance

Overall size		
Lay down support frame	mm	1585*1740
Pack up support frame	mm	1250*860
Lighthouse Telescopic	mm	1700-5000
Luminous Flux	lm	220000
Power*Number of lights	w	1000*2

Technical Parameter	Unit	SMLV1000QA
Model		SMLV1000QA
Generator set		
Gasoline generator		HONDA EC4000CX/LONCIN LC3500
Diesel generator		ANMAX DG3500CLE
Extemal contact power supply		Externally accessible
Name		Single phase alternator
Frequency	hz	50
Rated voltage	V	220
Maximum power	kva	3. 3
Rated power	kva	3. 2
Continuously working	hr	13
Fuel tank capacity	L	25
Engine weight	kg	93
Headlights		Metal Halide
Engine size	mm	690*530*575
Power*Numberof lights	w	1000*2
Luminous flux	lm	220000
Light stand retractable	mm	1700-5000
Light stand operation		Three-section lift rod
Lifting method		Hand lift
Inclination	°	<10
Wind resistance		<6
L*W-Lay down support	mm	1710*1740
L*W-fold support	mm	1375*860
Way of walking		Push type
Weight (excluding generator)	kg	117
